### Document Body

Indira, I'm still waiting for my copies on some the documents from our mail room. Here's the guidance on reviewing following George AFB's documents:

1. Final SAP Addendum October 2000 GW Sampling Event OU-2/OT-69/FT-20 dated October 2000 by Hydrogeologic.

Conduct a cursory review to ensure our comments were adequately addressed within the document. Submit your comments by October 24.

2. Final SAP Addendum October 2000 GW Monitoring Event OU 1 & 3 dated September 2000 by Montgomery Watson.

Conduct a cursory review to ensure our comments were adequately addressed within the document. Submit your comments by October 24.

3. Draft Confirmation Sampling Event Report Sites WP-17 and FT 19a dated September 2000 by Montgomery Watson.

You've got the TDM on this as discussed.

4. Draft Final SAP for Groundwater Pesticide Investigation.

Conduct a cursory review to ensure our comments were adequately addressed within the document. Submit your comments by October 24.

5. Draft Quality Program Plan Addendum for Additional Site Characterization of the Current Skeet Range dated October 2000 by Montgomery Watson.

As the Air Force requested a 2 day turn around time on this, focus your brief cursory review to ensure they are sampling the 2 correct very high level locations and that their suggested response is sound. Submit your comments by COB October 11 if possible.

6. Draft Water Quality Protection Standards for Operable Unit 3 Rehabilitated Landfill Sites (DP-10, DP-04, LF-2, LF-14 and the Southeast Disposal Area).

Conduct a cursory review on this document and focus on the conclusions and recommendations to ensure the statistical analysis are based on sound science, and they support the respective conclusions and recommendations. Submit your comments by COB October 31.

Subject: Response to Comments and New Documents

Fax to:

---

Hello James-

I received the following documents and wondered if you wanted me to review response to comments and the new documents?

1. Final SAP Addendum October 2000 GW Sampling Event OU-2/OT-69/FT-20 dated October 2000 by Hydrogeologic.
2. Final SAP Addendum October 2000 GW Monitoring Event OU 1 & 3 dated September 2000 by Montgomery Watson.
3. Draft Confirmation Sampling Event Report Sites WP-17 and FT 19a dated September 2000 by Montgomery Watson.
4. Draft Final SAP for Groundwater Pesticide Investigation.

Also, I have received the following new documents:

1. Draft Quality Program Plan Addendum for Additional Site Characterization of the Current Skeet Range dated October 2000 by Montgomery Watson.
2. Draft Water Quality Protection Standards for Operable Unit 3 Rehabilitated Landfill Sites (DP-10, DP-04, LF-2, LF-14 and the Southeast Disposal Area).

I await your direction.

Cheers,  
Indira
